Mr. JOHN Q. ADAMS, availed himself of the occasion to offer a few words, and stated that this country was on the verge of Pennsylvania. It is necessary that some Mexican war, an Indian war, and a war with England.

"He said that by our course in the affairs of Texas, we are courting a war with Mexico; and that England would fly to the rescue of that country. He said England to any such proposition, she would tell us, reception of boxes of abolition pamphlets that we could not have Texas, unless we in that quarter. Search was made, and consented to abolish slavery within the two boxes were found, filled with these indomain. He said that England would cendiary productions. They were im- provements being pledged to the State for the unite in the war of Mexico, for the purpose mediately seized by the people, and comof aiding the cause of emancipation; a cause to which she was now devoted, and of the sincerity of her attachment to which, she had given abundant proof by emancipating her colonics.

"Mr. Adams then related some facts connected with the foreign relations of this country, one of which was, that a secret tion had also been made to England and to div or two. France; and that England, at the time, was so jealous of the movements of the Gubians, that Mr. Canning was instructed to apprise this country, that any such arrangement on our part, would be the cause of war.

"Mr. Adams produced much sensation in the House, and there were not a few who believed with him, that we are on the eve of internal and external difficulties."

## A MAGNIFICENT PROJECT.

The prospect of the indepedence of Texas has given rise in New Orleans to a splendid design which if carried out, will create quite a new era in the history of a part of the commerce of this country. It is well known that steamboats of 500 or 600 tons burthen can ascend the the ding rooms, his ranges of batteries in Red River as high as Natchitoches-and it is now proposed, in a New Orleans paper, that a rail road shall be constructed Chief--an artiste of approved merit--can from that point through a gorge in the superintended his whole forces at once. DA PETERS VEGITABLE ANTI BILLIOUS

PILLS These Pills need but a trial to recom

They are purely vegetable and well calculated They act specially upon the Liver, when in a torpid condition, currying off a large quantity of bile, through the influence of the excernent func-

tion, which, if suffered to remain in the system, would produce either Jaundiee, Liver Complaint, Billious Fever, Fever and Ague, or some other grievous bodily affliction: In all cases of torper of the bowels, they act like a charm. In recent cases of Dyspepsia, they are a certain cure. Many persons who were subject to violent attacks of sick head ache, have been much benefitted, and several perfectly cured in a few weeks by their use. They are highly recommended as a preventive and cure of Billious complaints. Persons

who are subject to that distressing complain sea sickness, by taking a portion or two of them a few days previous to embarking on beard the vessel, will be almost certain to escape it. Females can use them at any period, without in-curring any risk. Persons going to sea, or to a southern climate, should by all means take some of these Pills with them.-Their virtues will remain unimpaired for years in any climate. No family should be without these Pills; a postion of them, taken occasionally would be the means of preventing much suffering from sickness. It is from neglect of keeping up a regular perisialtic action of the stomach and bowels, thus suffering to be absorbed and mingled with the blood, unas similated fluids, that most diseases are pr Dr. P. feels confident that no person who gives these Pells a fair trial, will ever after feel willing to be without them. The testimony of the sands speaking in the highest trrms of their effi-cacy, might be added, but the very high reputation Dr. P. has acquired as the inventor of the "Patent Vegetable Medicina Stomochica et Heputice," for the cure of Dyspepsia and Liver complaints, is thought a sufficient guarantee to these wishing to make a trial of their virtues. They contain not a particle of Mercury, or any ingredient that does not set in harmony with

health and oppose disease.

Dr. P. wishes it distinctly understood, that these Phils possess beneficial qualities inc dent of their purgative effects; they are both tonic and deobstruent, acting upon the secreting and exhalent functions; thus strengthening the patient, while they remove obstructions - Medicines which possess no other, excepting cathar-tic qualities, debilitate the patient, and their re-peated use lays the foundation of a long cata-
